公元二千年數位問題

所有未能符合公元二千年數位標準的系統的修正工作，已於1999年6月全部完成。本局亦擬訂了一套部門應變計劃，並在1999年下旬進行測試及演習。在充足的準備工作情況下，本局成功及順利地過渡千禧年。

辦公室自動化

本局繼續擴展工作站網絡，以支援辦公室自動化及終端機用戶的電腦應用。截至2000年3月31日止，網絡內的電腦工作站已增至約1,750台。過去一年，聯線查詢和更新事項的數目分別為3,020萬宗及610萬宗，而經以整批方式處理的事項也達1,800萬宗。

提交僱主報稅表

過去一年，共有25,000名僱主以磁帶或磁碟方式提交僱員薪酬資料，涉及的僱員數目約1,380,000名，當中有18,000名僱主使用本局編制的電腦軟件提交超過530,000名僱員資料。

商業登記申請系統

本局在1999年4月開始使用新的商業登記申請系統。市民可透過新的自助查詢服務查核已登記業務的商業登記號碼，以便申請商業登記冊的資料摘錄。過去一年，這類查詢約有250,000宗。

此外，有關商業登記申請書圖像及文件管理系統的提升工作，去年繼續進行。新的系統將於2000年8月實施。

Year 2000 Compliance

The rectification work for all non-compliant systems was completed in June 1999. A departmental contingency plan had also been drawn up and tested in the second half of the year. As a result of our good work, the Department had a smooth and orderly transition to the new millennium.

Office Automation

The Department continued to expand its computer network to support office automation and end-user computing. The total number of workstations rose to about 1,750 as at 31 March 2000. During the year, on-line enquiry and updating transactions totalled 30.2 million and 6.1 million respectively while 18 million transactions were processed in the batch mode.

Submission of Employer's Return

During the year, some 25,000 employers furnished their returns containing details of emoluments of some 1,380,000 employees by means of magnetic tapes or disks. Of the total, some 18,000 employers used the software developed by the Department to furnish returns in respect of some 530,000 employees.

Application system for Business Registration

The redeveloped application system for Business Registration was implemented in April 1999. During the year, some 250,000 enquiries were made by the public through the new self-service enquiry service to check the Business Registration Numbers of registered businesses for applying extracts of information from the Business Register.

Development work to upgrade the imaging and document management system for Business Registration applications continued during the year. The new system is scheduled for implementation in August 2000.
