To open your **eTAX** Account
Login : www.gov.hk/etax

You may

- create a TIN of your own choice
- select to receive electronic notices and documents

Need help ?

Refer to the online demo, Frequently Asked Questions and eTAX Help Desk information at the web site.

Attention

Please note that from 19 January 2008 onwards, all our online services are provided through the Internet under eTAX at GovHK. Services under the TeleTax System were discontinued on the same date. Telephone enquiry services are however not affected.

eTAX

The new gateway to IRD's electronic services

A brand new concept in providing, by phases from 19 January 2008 onwards, online services through the GovHK portal at www.gov.hk/etax, whereby you can login to your eTAX Account to keep track of your tax position, manage your tax affairs and communicate with us anytime anywhere.

You can now discharge your tax obligations more easily and conveniently:

Manage your own tax affairs anytime anywhere

- Checking any outstanding tax return or tax payment
- Updating your particulars and preferences
- Filing tax return and obtaining instant estimation of Salaries Tax payable (available from 5/2008)
- Viewing tax assessment and requesting amendment (available from 7/2008)
- Applying for holdover of provisional tax (available from 7/2008)
- Viewing e-receipt for tax payment (available from 1/2009)

Opt for electronic notices

- Notice to file tax return (available from 5/2008)
- Notice of assessment (available from 7/2008)

Receive e-alert messages before due date for

- Tax return filing (available from 5/2008)
- Tax payment (available from 1/2009)

Enjoy other online services for

- Filing of Property Tax Return (available from 4/2008)
- Stamping of property document
- Business Registration
- Payment

You can rest assured that your personal data are secure, because eTAX is operated on a highly secured platform employing strict security standards and procedures to prevent unauthorized access and protect data privacy.

You can help protect the environment by reducing paper and energy consumption through selecting to receive electronic notices and documents.
