

Computation of the Refund Amount

General

The refund amount is computed on a pro-rata basis by reference to the number of days of the certificate's overall validity period ("the Validity Period") and the number of such days falling within the period from 1 April 2021 to 31 March 2022 (the "Eligibility Period"). For a 3-year certificate, the fee paid for each year is different (see Table on right). Therefore, computation of the refund amount has to take into account which period within the 3 years the Eligibility Period falls into.

Charging Basis of 3-year Certificates

	Business Registration	Branch Registration
First Year Fee	\$2,000	\$73
Second Year Fee	\$1,600	\$58
Third Year Fee	\$1,600	\$58
Total	\$5,200	\$189

Example 4

Exceptional scenario: First registration certificate of a branch of a business which holds a 3-year certificate

In order to fit in with the expiry date of the business registration certificate held by the main business, the validity period of the first registration certificate of a new branch of a business holding a 3-year certificate is usually less than 3 years. Therefore, the refund amount is computed by reference to the actual validity period of the certificate subject to the amount of fee for the respective year of the certificate (\$73 for 1st year and \$58 for 2nd or 3rd year).

A branch of a business with a 3-year certificate has a first registration certificate with a validity period running from 1.1.2021 to 30.9.2023.

Validity Period of the Certificate

1,003 days from 1.1.2021 to 30.9.2023

Eligibility Period

365 days from 1.4.2021 to 31.3.2022

Registration Fee Paid

Refund Amount

$\$116 \times 365 \div 1,003 = \43
